Brother is Cerner Validated!

Printing, Scanning and Labelling Solutions that Help Meet Healthcare Needs

Did you know that Brother has printers, MFPs, scanners, mobile printers and label printers that have been validated by Cerner — a leading health information and electronic health record (EHR) vendor that connects people at more than 27,500 contracted provider facilities worldwide?

Healthcare facilities that use Cerner systems can confidently choose any Brother Cerner-validated product to reliably print, copy, fax, or scan from Cerner's system – seamlessly and securely.

Recognised for innovation, Cerner offers solutions and services for healthcare organisations of every size. Together with their clients, Cerner is creating a future where the healthcare system works to improve the well-being of individuals and communities.

This certification with Cerner demonstrates our commitment to providing healthcare facilities with high-quality, cost-effective printing and scanning solutions that address the needs and challenges of the healthcare industry.
